

Kean Crew: A message from Bill Spadea

September 18, 2006

Kean Crew Members - Welcome to the challenger campaign with the best shot in the nation of winning in November!

Congratulations on taking the first step toward that victory by becoming a part of the 'Kean Crew'. Tom truly appreciates the work that many of you have already done, specifically helping drive turnout to campus events that we've held throughout New Jersey during the past week. We've got another dozen colleges and universities to hit in the next two weeks and need your continued support.

This message is the first in a series of regular emails that you'll receive from me as we build our grassroots team to carry Tom over the finish line on November 7th. With 53 days to go to Game Day, we need to mobilize and energize thousands of additional voters to ensure Tom's victory. Your help and support are critical to our effort.

Here's what you can do immediately...

1) Forward the Kean Crew Sign Up Form to your email list (log onto www.TomKean.com and click on 'Build Support' to learn how). In your message ask your friends, family and associates to join you in staying informed about the most important election in the nation this year.

2) Attend one of the 'Action Meetings' being held at the Headquarters in Mountainside. Teenage Republicans: Thursday, September 21 at 5PM; contact Matt Mowers (mattmowers@comcast.net). College Republicans: Saturday, September 23 at 3PM; contact Frank Luna (Frank.Luna23@gmail.com).

3) Request an Absentee Ballot. In order to maximize participation in our turnout efforts, we're asking our key Crew members to vote absentee to increase your availability to volunteer on Election Day.

Thank you for everything that you are already doing to move this grassroots effort forward. Please email me directly bill@billspadea.com if you have comments, questions or ideas. With your help, we're going to win this election and take that first step toward restoring common sense, responsible government in New Jersey. See you on the trail...
